

Pay Equity Payments for the Home Support Workers in New Brunswick

The NB Government through the Women's Issues Branch has created a pay equity payment for homecare. The first payment has gone out to agencies accompanied by a letter of explanation. Please note that the payment received only covers from April 1, 2012 to March 31, 2013. Workers will receive the total \$2.15 hourly increase by 2017 (over the 5 year period). The NBHSA is in consultation with government as to how the balance will roll out. Note that this is a pay equity adjustment and not a wage increase.

If you have any questions please contact the Women's Issues Branch directly at 1-877-253-0266 or by email at nbwagegap@gnb.ca.
